FM-1050, FM-1000, FM-1100 and FM-1127 Series

FM-1050/FM-1000 Series

The HCJ series Tube-Cube® is used in the FM-1000 and comes with either a glass (GL), stainless steel (SS) or carboloy (CA) float. The HCE series is used in the FM-1050 and, except for the 0910 tube, comes with both glass and stainless steel floats.

FM-1100 Series:

XXXX = 0400

YYY = WNA

FM-1127 Series:

XXXX = 0066

YYY = WNB

Changing your Tube-Cube® size may also necessitate the changing of the valve to maintain an acceptable degree of flow control. Matheson valves are self-contained cartridges permitting easy interchange.
