

Ancillary Gas Handling and Control Equipment

Cylinder Restraints, Storage Systems, and Handling Equipment

428

One of the most overlooked and potentially hazardous situations faced by compressed gas users is the proper restraint of compressed gas cylinders. Whether in use or in storage, gas cylinders are required by code to be handled properly to prevent uncontrolled release of the cylinder's contents.

Model 708 Bench Type Cylinder Holder

Description

This bench mount single cylinder bracket uses dual mounting posts with swivel feet and non-slip pads to clamp to bench or table tops from 3/8 inch to 1-3/4 inch thick. Standard strap set secures cylinders 4 to 14 inch diameter. Especially useful where walls are not accessible to attach brackets or when temporary, safe cylinder supports are required. 11 Gauge powder painted hot rolled steel construction.
